## COMPANY CASE STUDY

Bayan Palace Conference Centre – Kuwait  
National Government

## OBJECTIVES

The Bayan Palace, opened in 1986 for the Fifth Arab League Summit, is one of Kuwait's finest architectural achievements, spanning 1.4 million square meters. It serves as the primary venue for international conferences in the country.

The Council consists of 39 elected members, representing fifteen electoral wards. Eight of the wards elect three members each. The other seven elect two each. The council is elected by thirds, with the most recent election happening in May 2011. The Council is currently controlled by the Conservatives, who hold 35 of the 39 seats, while 4 Labour councillors represent wards in the Borehamwood area.

## REQUIREMENT

The Conference Hall required a full conferencing solution to allow for multilanguage translation, fixed delegate units with LCD display screen for messages and that were in-keeping with the environment. Also 12 language translation booths and 1,500 listening posts for the translation of the meeting into the tiered seating. The meetings are to be webcasted, televised and displayed on large screen monitors around the hall.

## SOLUTION

### Auditel's Ambassador system including:

- Broadcast-quality microphone
- Ring illumination & inbuilt loudspeaker
- LCD display, headphone jack, and 12-channel language selector

### Custom Design:

- Polished solid brass units tailored to match the palace's aesthetics
- Hardwired system for maximum reliability & translation security
- Audiovisual Integration:
- Audicam system for automatic PTZ camera tracking of active microphones
- Live footage displayed on two 4m-wide LED screens, webcast, and televised
- Tiered Seating Solution:
- 1,500 listening posts integrated into chair arms
- Features: 12-language selection, headphone socket, and volume control

### Audiovisual Integration:

- Audicam system for automatic PTZ camera tracking of active microphones with live footage displayed on two 4m-wide LED screens, webcast, and televised
- 1,500 listening posts integrated into chair arms
- Features: 12-language selection, headphone socket, and volume control.
